### FOREWORD

The seasons greetings to my glad friends and customers everywhere. This season we were blessed with an abundance of moisture and cool weather, with the result that I have harvested the finest crop of bulbs that I have ever had. If you are looking for colored glad pictures, you won't find them in this list. But if you want peppy, vigorous bulbs, grown without fertilization and without forcing for exhibition, then I assure you that I am in a position to supply you with such, and also to give you the greatest value your money will purchase anywhere. Naturally I do not list everything, but I do believe my list is a fair representation of the finest varieties of recent introduction. Limited space prevents my commenting on many, but among the most outstanding this season I may mention MARGARET BEATON, SURFSIDE, CORAL GLOW, NEW ERA, WINGS OF SONG, REWI FALLU, MYRNA, LADY ASTOR, GRETA GARBO, PURPLE BEAUTY, ROSA VAN LIMA and the Krueger releases.

The Krueger seedlings are coming along strong. Mr. W. L. Pearson, originator of Shenandoah, Lady Astor and others, writes as follows: "DIANE is lovely, and I give it my hearty approval. I believe if I had had spikes of it at Hagerstown I could easily have won first with them, and as you know, I had only small bulbs of it." Elmer Gove, who owns the largest stock of DIANE, writes: "DIANE was very fine this season. I had spikes as tall as my head, and Palmer had some even taller."

Mr. W. M. Anderson, Millbrook, N. Y., won first at the New York World's Fair Glad Show on three spikes of COONEY LASS, and he had only five bulbs last spring to plant. Mr. J. T. Robertson, Sunnyside, Wash., writes me as follows: "I had my big thrill of the season this morning when COONEY LASS bloomed." Those who saw Mr. Krueger's exhibit of MASTER MYRON at the Wisconsin Glad Show this season realize that the long looked-for commercial red has at last arrived. GEM must be grown in quantity to be appreciated, but it is a florist's glad par excellence and a favorite of color-conscious fans. THE DUKE is strictly an exhibition red.

### 1941 KRUEGER RELEASES

#### DESCRIPTIONS AND PRICES

**BADGER BEAUTY**—Beautiful lavender of the same sheen and tone of Minuet, its seed parent, but enhanced by its creamy white throat and midribs, and informal placement. Five florets is the usual number open. They are 4¼ inches, large. No crooks and healthy.

**PRICE EACH:** LARGE \$4.00; MEDIUM \$3.00; SMALL \$2.00 — NO BULBLETS!

**PHLOX PINK**—A new shade of glistening pure pink with a lavender cast, enhanced by white midrib. An early bloomer. Produces a goodly number of bulblets that germinate readily. Plants grow 50 inches tall. The spike carries about 20 buds on a 22-inch flower head. 7 to 10 florets open at once. Size 4¼ inches. No crooks and healthy. A daughter of Gem and a granddaughter of Coryphee.
